Furniture designed for gracious living

UNION-NATIONAL, INC. JAMESTOWN, NEW YORK 14701

MALAYSIAN

Oriental Contemporary

Oriental in theme, but contemporary in design, Malaysian offers a welcome warmth and change from sterile modern. The rich finishes of Taj fruitwood as well as Taj green, Taj yellow, Taj red, and Taj white are strikingly original in tone and warmth, and contrast beautifully with the ebony bases. The clean geometric lines and the deliberate elimination of conceits lead to a most appealing simplicity.

height 31″. Right facing compartment fitted with
two pull-out trays. Top tray has silver storage insert.

MELODICO

Mediterranean Styling

As the name implies, Melodico is a harmonious group of dining room furniture distinguished for massive appearance, rich finish, and formal grace in an elegant Mediterranean style. Veneer burls on the doors, antique brass hardware and finials, gold embossed leathers on the chairs, rich mouldings on door frames . . . all these are interesting characteristics of this stately group.

RIVOLI

Bombé

BEDROOM

Madame de Pompadour once stated that she liked the design of Bombé furniture because it followed the line of the feminine form and bulged in the proper places. Be that as it may, Bombé flowered in 18th Century France and achieved its loveliest form in Venice, Italy. Rivoli Bombé provides a particular elegance both in fruitwood finishes, and in custom white with silvery gold tone metal stripe. It is particularly recommended to those who appreciate rich sumptuous furniture arrangements in their homes.

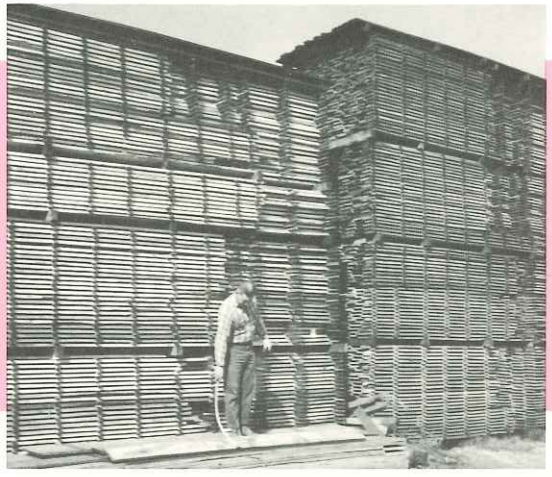
FURNITURE BY UNION-NATIONAL, INC.

Product of age-old skills and painstaking craftsmanship

UNION-NATIONAL was built on a foundation of fine cabinetmaking. The skills of Scandinavian craftsmen who emigrated to Jamestown, N. Y. in the last century have been transmitted from father to son to grandson and are presently realized in the beautiful pieces you will find in this catalog.

SELECTING AND SEASONING THE WOODS

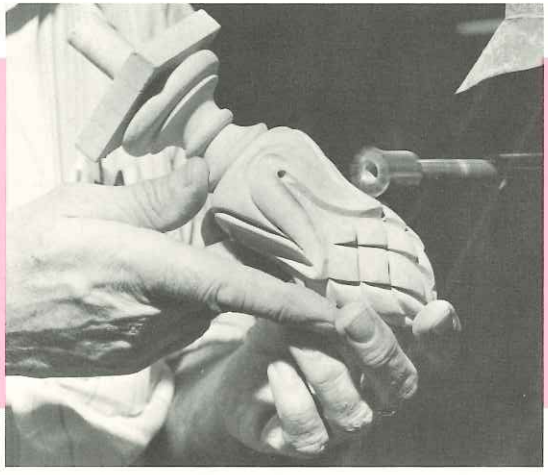


Much of the secret of Union-National's superb furniture lies in the painstaking preparation of the wood itself.

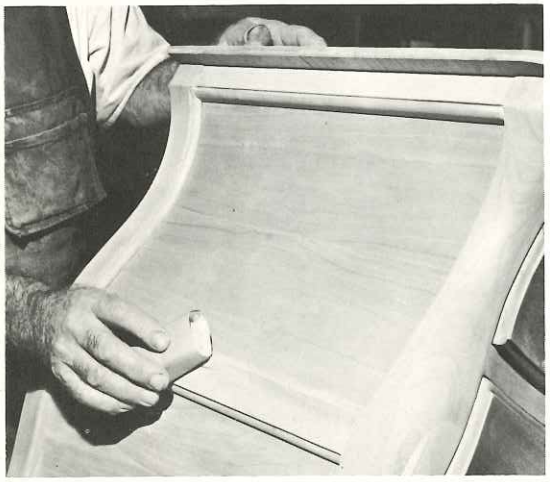
The lumber, selected piece by piece from cherry, maple, beech and other of the finest northern hardwoods, is seasoned slowly in large air drying sheds.

After many weeks the lumber is placed in drying kilns where original moisture is reduced 60% to 70% in a treatment that lasts from four weeks to three months. The very latest of automatic, electrically controlled equipment under highly technical supervision is necessary here.

ROUGH CUTTING AND CARVING



Craftsmen, many of whom have been engaged in cabinetmaking from boyhood, turn the most intricately detailed components on lathes and shapers, frequently spending hours honing cutting blades to be certain that every minute detail is as the designer had intended. And you may be certain that doweling, dovetailing, fitting and other "hidden" qualities of Union-National furniture are watched and completed as carefully as any outside feature.



HAND CRAFTSMANSHIP

The dedicated cabinetmaker working with fine woods takes pleasure in the perfection of his craftsmanship. No detail is too small, no imperfection, no matter how trivial, escapes his commitment to excellence. With Union-National, speed and quantity of production are secondary. We estimate it takes six months from the time the rough lumber enters our plant till it emerges as a finished piece of furniture.

HAND FINISHING

Union-National furniture takes on depth and beauty with skilled sanding and finishing. The lovely fruitwoods acquire a satiny feel when the careful hand sanding is completed. Then coat after coat of translucent lacquer and glaze provide a restrained lustre. Later a laborious process of hand rubbing and waxing gives the furniture a magnificent patina, not to be achieved in any other way. Depending on the desires of the ultimate customer, Union-National offers an almost endless variety of finishes. Our dealers and decorators will be glad to show you the boundless selection.

HAND DECORATING

Furniture finished in pastel and other shades with or without Chinoiserie or floral decorations is an outstanding feature of the Union-National line. In addition decorative designs in Adams, Pillement, Trophy and other motifs are frequently used to accent our wall cabinets, breakfronts, credenzas and other pieces. These decorations are hand-painted by gifted artists.

UNION-NATIONAL FURNITURE EASY TO CARE FOR

REGULAR CLEANING: To remove finger marks and the ordinary soil of daily use, just wipe the furniture with a soft cloth dampened with water. Dry immediately with another clean soft cloth. Always rub with the grain of the wood. NOTE: It is not wise to set hot dishes directly on the furniture, nor use flower pots which are watered periodically so that the finish might be kept wet.

POLISHING: For wood finish furniture ONLY — NEVER for painted furniture: Once or twice a year, after cleaning with a damp cloth, apply a coat of high quality wax or other suitable polish. Cover only a small portion of the surface at a time and rub immediately before the wax has an opportunity to set. The directions, furnished with the polish you use, should be followed carefully.
